Subject: Please Support Keeping TEP on track with energy efficiency, Docket No. E-01933A-15-0178

Dear Acting Chairman Little and Commissioners:

Our names are Mary Ann and Frank Graffagnino we are TEP customers.

Energy efficiency programs help Arizonans reduce our electricity bills through installation of efficient lighting and appliances, more efficient air conditioners, and by repairing leaky ductwork.

My husband and I urge you to support adding new cost-effective opportunities to the TEP portfolio and to expand on the success of current energy efficiency programs and policies. These efficiency programs create jobs in Arizona communities and help our economy overall by keeping more of our energy dollars right here in our state. Finally, because they save energy and reduce demand for electricity, these programs help drive down energy costs for everyone.

The Arizona Energy Efficiency Standard and these programs have already saved Arizonans hundreds of millions of dollars in lower utility bills, reduced air pollution, and water savings. We have personally used CFL and LED light bulbs, and will use the refrigerator recycling program with the purchase of our next refrigerator and plan to have our home insulation re-done in the near future. We have seen a reduction in our energy use, leaving more dollars to spend on necessities. WE would like to see more program offerings to help us and other TEP customers to further reduce our energy use.

Please work to allow the expansion of cost-effective energy efficiency programs in the TEP service area and approve funding to continue existing programs.

THANK YOU AND PLEASE CONTINUE TO TAKE THE RIGHT, FAIR, JUST, HUMANE AND HEALTHY ACTION FOR CURRENT GENERATIONS AND FUTURE GENERATIONS. WE WANT A SAFE AND BEAUTIFUL ENVIRONMENT FOR ALL.

Thank you for your consideration.

Sincerely yours,

Mary Ann and Frank Graffagnino
